PROFILE

Enthusiastic, proactive, fast learner developer with some background in IT , reinventing my self with new technologies, looking for a junior web developer role in an organization to utilize my technical skills for the growth of the organization as well as to enhance my knowledge in recent technologies.

Additional Notes: Permanent Resident -No sponsorship required to work.

EMPLOYMENT HISTORY

Full stack developer trainee, Codaisseur   Amsterdam
Sep 2019 — Nov 2019

A 3 -Month intensive course focused on 'learning -by-doing ' real life projects Using agile methodology. Working independently as well as in teams was a routine procedure. Hard work , creativity is in my nature.

- **Dog list Game**: An app which behaves as an interactive game build using React, Redux, HTML CSS, Express and external API.
- **Student Evaluation App** : A full stack App made using HTML, CSS, Javascript, PostgreSql, React,React-Redux and Sequelize, REST API.

Recent Projects:

- **Refund-App**: A responsive app built using react,redux , javascript .   displays overview of invoices which is refunded after QR-code of invoice is scanned.
- **Picture Puzzle Game**: A (4*4) picture puzzle game built using Pure Vanilla javascript, html, css.
- **Gallery App**: A **responsive** app which displays images in grid, grid size changes based on screen size and each image opens up in LightBox using react.
- **Mobile Store App**: A mobile store **E-commerce** app built using react **contextAPI,React styled components** and bootstrap.App allows to add the selected mobile to cart and do the final payment.
- **Tv maze show**: A responsive app built using react,redux and Sass . It displays list of tv shows and its details.
